Green Veltiner to the Zweigelt*

Bike tour to the most beautiful
regions of Austria

From Saturday, **June 29, 2019**
to Tuesday, **July 2, 2019**

4 tours at a glance

Dear cycling enthusiasts,

This year the alpine republic is the destination of our "Bike & Wine Tour". From June 29 to July 2, we discover the most beautiful regions of Austria. Once again, the route offers not only sportive challenges, but also sights, panoramic views and culinary specialties.

We start near the German-Austrian border between Passau and Linz with a varied tour before we proceed to our first overnight accommodation in Krems.

Starting in Krems, we discover an interesting region, which, besides the river valley worth seeing and the picturesque mountains, also has to offer viticulture. On the third day tour through a flat and beautiful landscape, we ride around Lake Neusiedler before the more demanding tour through the "Bucklige Welt" (land of a thousand hills) at the end of our schedule.

The route planning also includes shorter alternatives for less ambitious cyclists. Having fun plays a dominant role, but it is also about the good cause. The proceeds of the "Bike & Wine Tour" will be donated to our projects again.

We are looking forward to exciting and eventful cycling days!

Specialties from the Pfaffenwinkel region

Pfaffenwinkel is the home of our delicious ham specialties. An ideal location for an excellent product.

The philosophy of the brand “Landler” is easily explained: “Best tradition of craftsmanship, natural raw materials and a sales structure far from mass-produced items. This is the secret of our success!”

It is clear today: anyone who once tried these specialties knows the taste of nature. Seasoned by hand and lightly smoked over beech wood according to passed down traditions, this is how the “Landler” country bacon gets its unmistakable taste.

The good cause – Give hope

Helping the little ones in their first important years and offering hope for a better future - this is how the project “Give hope” has been initiated.

Ten years ago, Mr. and Mrs. Grubenmann from Switzerland started a project in the townships of Cape Town to support a nursery for children aged six months to six years.
